To Students, Parents and Guardians

Now that EECD has announced that schools will remain closed for the remainder of this school year, ASD-N recognizes that parents and students have questions about accessing personal items in school lockers.

At this time, student/family access to schools is not permitted. We will continue to look into this possibility but will need to await further direction from the Department of Health.

ASD-N will keep students and families updated if there is any change on this matter.

Thank you for your understanding and patience.
