April 21, 2015

Dear Parents/Guardians of Napan Elementary School:

On April 20, 2015, the Anglophone North School District Education Council voted in favor of engaging in a sustainability study of Napan Elementary School, under the process of Provincial Policy 409: Multi-Year Infrastructure Planning. This study will explore the sustainability of keeping Napan Elementary School open. As the number of students attending Napan Elementary School is less than 100, a sustainability study is required under Policy 409, which was revised in March 2015 to include a trigger for student enrolment. This policy can be viewed at <http://www.gnb.ca/0000/pol/e/409A.pdf> as well as on our district website at <http://asd-n.nbed.nb.ca>.

The sustainability study will begin with an outline of the process and facts about Napan Elementary School as guided by Policy 409. Parents and community members are invited to attend the first public meeting in the consultation process on this sustainability study. This first meeting will be held:

Date: Thursday, May 28, 2015

Time: 6:30 pm

Location: Napan Elementary School

A second public meeting will be held where parents and stakeholders may present ideas on the sustainability of the school complex. Relevant documentation about this sustainability study can be found on our district website. The second meeting will be held:

Date: Tuesday, September 15, 2015

Time: 6:30

Location: To Be Announced

Anyone wishing to make a presentation at this meeting must advise the district in advance by Wednesday, September 9, 2015. This can be done by emailing the Superintendent at elizabeth.stymiest@gnb.ca or by calling 506-778-6301. When emailing, please indicate your name and length of presentation so that it can be added to the agenda.

The third meeting will be held on Monday, September 21, 2015 at the regularly scheduled District Education Council meeting. The venue for this meeting is to be determined.

Sincerely,

Beth Stymiest
Superintendent
Anglophone North School District
